FOR THE SPECIAL ENTERTAINMENT OF OUR GIRL AND BOY READERS.

A True Story of the Industry of a Colony of Aesthetic Wasps and Their Queen

Home-The Goose and the Kite-Young Manu's System of Reading.

What keen eyes have these busy little workers, flying about and their little wings, in the early spring days. House hunting, that is what they are doing. In at your window, under the eaves of the barn, getting in the most inconceivable and, sometimes, unbecoming places. Nothing is beneath their notice; not even an old, discarded curtain shade, as a friend tells me who has seen the wasps at their work.

Perhaps it was once one of the much prized treasures of some small girl, rambling through the house by, with her arms so full of toys that the treasure dropped and was lost forever to its owner.

There it lay, unseen, until one day a busy wasp came bustling about the barn yard, and before long a small, fat, round object, looking, pretty colored object in the long grass attracted its attention and gave it a most brilliant idea.

First taking a peep in at the top, it disappeared from view, only to reappear at the other end; then, in the inspection revealing all the treasures, it came out, flying off with a satisfied buzz, to return with a whole colony of its fellow workers, ready to begin on the new home.
